Abhishek Kumar

FULL STACK ENGINEER

Faridabad, Haryana, India | +91 9354075947 | abhishekshakya2357@gmail.com

Portfolio | GitHub | LinkedIn | LeetCode

PROFESSIONAL SUMMARY

Full Stack Engineer and BCA ('26) graduate with proven experience architecting production-grade MERN web applications, RESTful APIs, and relational schemas. Completed **116+ algorithmic coding challenges on LeetCode** in JavaScript with deep focus on time-space complexity optimization. Proficient in layered design (**Controller → Service → Repository**), JWT session rotation, and frontend engineering with **99.9% deployment reliability** on Vercel and Render.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, C++, Java, HTML5, CSS3, SQL

Frontend Architecture: React.js, Next.js, Tailwind CSS, Axios, React Router, Responsive UI, State Management

Backend & APIs: Node.js, Express.js, RESTful API Design, JWT Authentication, RBAC, Middleware, Rate Limiting

Databases & Caching: MongoDB (Mongoose), PostgreSQL, MySQL, Redis, Schema Normalization, Query Optimization

DevOps & Tooling: Git, GitHub, Postman, Vercel, Render, Docker, Zod Schema Validation, Winston, Morgan

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), MVC Architecture, DBMS

TECHNICAL PROJECTS & EXPERIENCE

CareConnect – Healthcare Consultation & Management Platform — 2025 – 2026

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Zod, JWT, Vercel, Render | Live Demo | GitHub

- Architected a 3-tier MERN platform (**Controller → Service → Repository**) serving **13 modular REST endpoints** for doctor discovery, appointment scheduling, and patient management.
- Engineered an **Axios response interceptor queue pipeline** that intercepts 401 statuses, coordinates token rotation, and replays enqueued requests, eliminating **100%** of concurrent session drops.
- Integrated a multipart media upload pipeline using **Multer** and **Cloudinary SDK**, enabling secure, optimized image asset uploads for doctor profiles and verified credentials.
- Implemented Role-Based Access Control (**RBAC**) with HTTP-only JWTs, input sanitization via **Zod**, and security hardening (**Helmet**, **CORS**, **Rate Limiting**) preventing unauthorized API access.
- Streamlined production diagnostics using **Winston** and **Morgan** logging; configured client rewrite rules on **Vercel** and deployed API microservices on **Render**.

Interactive Developer Portfolio & System Architecture Showcase — 2026

React 19, Tailwind CSS v4, Framer Motion, Web Audio API, EmailJS, Vite | Live Demo | GitHub

- Engineered a responsive developer portfolio achieving a **98+ Google Lighthouse** performance score, featuring customizable multi-theme tokens and interactive architecture topologies.
- Synthesized zero-asset UI audio feedback programmatically using browser **Web Audio API** oscillators, eliminating external media payloads while delivering tactile micro-interactions.
- Integrated an automated email dispatch pipeline via **EmailJS** with multi-alias parameter normalization and client-side validation, achieving **100%** reliable message delivery.

EDUCATION

Bachelor of Computer Applications (BCA) — 2023 – 2026

DAV Centenary College, Faridabad • Affiliated to Maharshi Dayanand University (MDU), Rohtak | **Aggregate: 71.03%**

Relevant Coursework: Data Structures & Algorithms, Database Management Systems (SQL), Operating Systems, Computer Networks, Software Engineering, Object-Oriented Programming (Java/C++).

CERTIFICATIONS & ALGORITHMIC CREDENTIALS

- **LeetCode Algorithmic Milestones:** Completed **116+ algorithmic challenges in JavaScript** (Profile Link) across Arrays, Two Pointers, Sliding Window, Graphs, and DP Optimization.
- **Full Stack Web Development 1.0:** Physics Wallah Skills (Credential Link) — Comprehensive curriculum in React.js, Node.js, Express, MongoDB, and REST API Architecture (Dec 2024).
- **Namaste DSA:** NamasteDev by Akshay Saini (Credential Link) — Rigorous training on Data Structures, Algorithms, Time-Space Complexity Analysis, and algorithmic design patterns.
